***Allowable Subject Matter***

1. Claims 1-53 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, Endo et al (para. 8) fails to teach the method of configuring a radio frequency identification device comprising the specific steps of identifying a low-current-flow portion of an antenna layout proposed for the antenna structure; and placing a high effective resistance region in the low-current-flow portion, and low effective resistance regions in other portions of the antenna layout.

Claims 2-14 are allowed for depending on claim 1.

Regarding claim 26, Endo discloses an RFID device comprising a substrate; an antenna structure on the substrate. Endo, however, fails to specifically teach the configuration wherein the antenna structure having a regular shape and including a low effective resistance region; and a high effective resistance region having an electrical conductivity less than that of the low effective resistance; and an RFID strap operative coupled to the antenna structure.

Claims 27-38 are allowed for depending on claim 26.

Regarding claim 39, Endo fails to teach the method of configuring a radio frequency identification device antenna structure layout comprising the specific steps of selecting an initial antenna structure layout, wherein the initial antenna structure layout includes a conductive element of conductive material, wherein the conductive element has a regular shape; and changing the effective resistance of a portion of the conductive element.

Claims 40-44 are allowed for depending on claim 39.

Art Unit: 2821

Regarding claim 45, Endo fails to teach the method of reducing cost of radio frequency identification device comprising the specific steps of selecting an initial antenna structure layout, wherein the initial antenna structure layout includes a conductive element of conductive material; and modifying a portion of the conductive element of the initial antenna structure layout to produce a modified antenna structure layout having a reduced cost associated therewith.

Claims 46-53 are allowed for depending on claim 45.

Reasons for indicating allowable subject matter for claims 15-25 were provided in the previous Office action.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
